

earth OPTIMISM 2020 DIGITAL SUMMIT

 Smithsonian

In collaboration with the Smithsonian Institution, RGV teens are invited to participate in this exciting FREE film project Earth Optimism 2020 at IMAS. Teens will create a short video to share their observations and ideas on how to promote practices for a sustainable future.

Participating teens will be provided filming equipment, software and laptops to complete their video project. Videos will be entered into a global competition. The in-person camp will take place at the museum in a small group of less than 10 people. Masks are required and safe social distancing will be implemented. Participants will not share any equipment. A final workshop will take place on January 4 for teens to submit their videos projects.

WINTER CAMP

Onsite: Monday, December 28 through
Thursday, December 31, from 9 AM-3 PM

(Early drop off starts at 8:30 AM and pickup runs until 3:30 PM)

Virtual: Monday, January 4, from 4-5 PM

No cost to participate. Participants must be ages 13-18.

*Participants must bring their own lunch/snacks the 28th-30th.
Lunch will be provided on the last onsite day, December 31st.*

Earth Optimism at IMAS is sponsored by the Smithsonian Affiliates Women's Committee.
